Education is essential for everyone. It is the level of education that helps people earn respect and recognition. In my opinion, it is indispensable part of life both personally and socially. It is our prime concern to work for whole person development. Education is absolutely beneficial for society on the whole. It is a life-long process to each person that need to be reinforced throughout life. However, we need education system that may eradicate illiteracy and may provide the common man an access not only to basic education but also to high level professional and technical education.

Bhavna Sharma
